

# Arctic Heat Muscle Cream

500mg CBD | 500mg THC

Net weight 120g

Botanically blended for deep muscle penetration  
Dual cooling and warming effect  
Apply generously, where and as needed

## Product Overview:

Designed to protect and rehydrate all skin types while boosting circulation and deeply penetrating into muscles. **Arctic Heat** creates a dual cooling and warming effect which provides long lasting relief to help you bounce back, and keep going, making this cream the perfect addition to your daily wellness ritual.

## Key Ingredients:

**Tucuma Butter** is unusually rich in lauric, myristic and oleic acids; it is thus considered to have excellent emollient and skin-softening properties.

**Camphor Essential Oil** produces a dual warming and cooling effect recognized to soothe inflammation, redness, sores, insect bites, itching, irritation, rashes, acne, sprains, and muscular aches and pains.

**Rosemary's** analgesic and anti-inflammatory properties make it an ideal essential oil for relieving muscle aches and pains.

**rebound**
